SOFTWARE ENGINEER

- **Graduate programmer**
- **Career development opportunity**
- **New position**
- **.NET 2.0 C# SQL**

Successful WA company, involved in computer telephony and hosted applications, seeks a dedicated full-time software developer.

You will be responsible for object-oriented software development, documentation, testing and integration, and assist with analysis and design.

You will be self motivated, enthusiastic and genuinely committed to personal and company growth. To secure this exciting and rewarding opportunity, convince us, in writing, that you can add value to our business.

Applications to the address below
by 31st January 2007.
