

2006 EMC Society of Australia Student Paper Competition

Prize: \$1000 for the best paper.

The EMC Society of Australia, a Technical Society of the Institution of Engineers Australia, invites Tertiary students to prepare a paper on any aspect of EMC technology. All papers will be considered for publication in the Newsletter of the EMC Society.

Conditions:

The Entrant must be a student studying towards a recognised Award from an Australian Tertiary Institution.

The paper should be the student's own work, and should carry acknowledgements where others have contributed. There is no set format for papers, but the requirements of professional institutions such as IEAust., IEEE and IEE may be taken as a guide.

All papers must be received by the 2nd October 2006. Electronic submission is required. A confirmation of receipt will be sent.

Papers should be sent via email to enquiries@emcsa.org.au and should be in MS Word or Adobe pdf format. Authors must prepare all graphics with a view to clearly communicating the information when printed in black and white.

The National Council of the EMC Society will be responsible for judging the papers, and the Council's decision will be final.
No correspondence will be entered into.
