

INVITATION TO ACCELERATED NETWORKING EVENT, PERTH THURSDAY 18 SEPTEMBER 2003

Proudly sponsored by:  **Business**

**Supported by: DEPARTMENT OF COMMUNICATIONS,
IT & THE ARTS**

The Australian Electrical and Electronic Manufacturers' Association (AEEMA) will hold its next **Accelerated Networking** event in Perth, Western Australia. The purpose of these events is to provide an opportunity for attendees to network in a structured and facilitated way.

Dr Tim St. Pierre will deliver a fascinating presentation about the role of physics and magnetism in biology and medicine, as well as the trials and tribulations of commercialising technology.

Attendees will also be updated on the current status of the electronics industry Action Agenda, the industry-led initiative that was ratified by Cabinet in June and formally launched by Ministers Alston and Macfarlane earlier this month. Implementation of the recommendations is now under way.

This will be followed by structured networking. Over refreshments, attendees will be asked to exchange business cards and key information about their respective businesses with someone they haven't met before, then move on to the next exchange.

SPEAKERS

- ❖ **Angus M Robinson, Chief Executive, AEEMA**
- ❖ **Dr Tim St. Pierre, Associate Professor, School of Physics, University of Western Australia**

Cost: Free
