

PIVoD Group

Our Vision is to be leaders in converging technologies, devising and delivering intelligent and practical solutions to significantly improve the business outcomes of our corporate and government clients around the world. We use best practice engineering and the latest technologies (eg: C# and .Net) to develop world class software solutions.

What is **Your Vision?**

Come and hear more about our companies, our projects and our technologies. We want to share some stories about, and insights into the industry, and hopefully inspire you with the possibilities.

DATE: Friday August 25th 2006

TIME: 1:00pm

VENUE: Blakers Theatre at UWA

The PIVoD Group includes PIVoD Technologies, Pretzel Logic, Kilarney and Media Server Centres Australia (MSCA).

PIVoD Technologies delivers the highest quality digital media-on-demand and device control systems to corporate facilities, cultural venues and public spaces around the world.

Pretzel Logic is a leading provider of e-business services, with a unique balance between strategic, technical and creative expertise.

PIVoD Group staff are encouraged to be inventive in conceptualising solutions and disciplined in their implementation. We aim for industry best practice in software and hardware engineering and continually strive to improve our practices.

PIVoD GROUP PRESENTATION AT UWA/PINTS
